PROFESSIONAL SUMMARY

Dedicated and user-focused Frontend Developer with over 2 years of hands-on experience building interactive and responsive web interfaces using HTML, CSS, JavaScript, and React.js. Currently working at DibaTech, where I contribute to building scalable, accessible, and mobile-friendly platforms designed for digital education and professional tools. Experienced in translating Figma/UI designs into clean, functional code, optimizing user experience across devices, and collaborating with teams to deliver polished applications. Passionate about continuous learning, UI design precision, and delivering consistent front-end performance.

Core Skills:

Responsive Web Design • React.js • JavaScript (ES6+) • HTML5 • CSS3 • Git & GitHub • UI Implementation • Accessibility • Mobile Optimization • Cross-Browser Compatibility

SOFT SKILLS

- UI Precision & Design Eye: Strong understanding of layout balance, spacing, and responsive typography
- Collaboration: Experience working in remote Agile teams, cross-functional communication
- Problem Solving: Able to debug rendering issues, resolve layout conflicts, and adapt quickly to new stacks
- Communication: Can explain technical concepts clearly to non-technical teammates
- Time Management: Efficient in juggling multiple feature requests and deadlines
- Continuous Learning: Actively follows frontend trends and participates in coding communities

TECHNICAL SKILLS

Languages & Scripting:

- HTML5 – Semantic structure, accessibility tags, form handling
- CSS3 – Flexbox, Grid, animations, media queries, BEM methodology
- JavaScript (ES6+) – DOM manipulation, event handling, fetch API, promises, async/await
- TypeScript (learning/in-progress) – Type safety, interfaces, basic config

Development Tools & Platforms:

- Git & GitHub – Version control, branch management, pull requests
- Visual Studio Code – Extensions (Prettier, ESLint, Live Server)
- Chrome DevTools – Inspecting DOM, debugging JS, performance profiling
- Figma & Adobe XD – Translating design files to frontend implementations
- Netlify / Vercel – Static site deployment for React and HTML/CSS projects

Frameworks & Libraries:

- React.js – Functional components, hooks (useState, useEffect, useContext), JSX, component lifecycle
- React Router DOM – Client-side routing, dynamic routes, nested navigation
- Tailwind CSS – Utility-first styling for rapid UI building and responsiveness
- Bootstrap – Prebuilt UI components and grid layout

Frontend Concepts:

- Responsive Design (Mobile-first)
- Cross-Browser Compatibility
- Code Reusability & Componentization
- API Integration & Fetching
- Basic Accessibility (WCAG), ARIA roles

PROFESSIONAL EXPERIENCE

DibaTech Frontend Developer

April 2023 – Present

- Built and maintained key frontend components for DibaTech’s Resume Builder, Student Portal, and internal dashboards.
- Implemented pixel-perfect UI from design tools like Figma using React.js, CSS Flexbox/Grid, and modern JavaScript.
- Ensured consistent performance and styling across major browsers and screen sizes.
- Participated in Agile sprints and collaborated with backend developers for seamless API integration.
- Contributed to reusable component libraries and codebase cleanup for maintainability.

Key Contributions:

- Helped deliver a mobile-first version of the Student Portal, increasing accessibility on low-end devices.
- Improved page load time and styling consistency by optimizing asset loading and modular CSS.

Junior Frontend Developer (Freelance Projects)

Junior Frontend Developer (Freelance Projects)

June 2021 – March 2023

- Designed and developed custom websites and landing pages for small businesses and personal brands.
- Focused on layout structure, visual consistency, and responsive behavior using vanilla HTML/CSS and JavaScript.
- Built and deployed basic React single-page apps (SPAs) for project showcases.

Sample Projects:

- A restaurant landing page with menu display and contact form
- A portfolio SPA with animated sections and dark mode toggle
- A static blog layout prototype

Junior Developer / Technical Intern Freelance & Training Roles – Nigeria

2018– 2020

Built portfolio websites, learning management mockups, and mobile demos using HTML, CSS, and basic JavaScript.

Developed simple to-do apps, calculator UIs, and static websites while learning frontend development foundations.

Contributed to open-source layouts and basic blog templates.

SELECTED PROJECTS

1. DibaTech Student Portal (2024)

A web portal for student ID generation, course enrollment, and dashboard access.

Tech Stack: React.js, CSS3, JavaScript, REST APIs

Responsibilities:

- Developed responsive UI components
- Integrated APIs for dynamic content rendering
- Ensured mobile optimization and accessibility compliance
- Participated in version control and deployment cycles

2. Resume Builder Platform (2024)

A web-based tool inspired by Canva for building and customizing resumes.

Tech Stack: React.js, Tailwind CSS, JavaScript

Responsibilities:

- Styled dynamic templates with grid/flex utilities
- Worked on real-time preview updates and custom UI components
- Supported layout enhancements and bug fixes for usability

3. Personal Developer Portfolio (2023)

A modern one-page portfolio with dark mode, project gallery, and CV download.

Tech Stack: HTML5, CSS3, React.js

Responsibilities:

- Built custom components (Hero, Projects, Contact form)
- Managed scroll animations and route transitions
- Deployed live on Netlify with GitHub CI

4. Restaurant Website – Freelance Project (2022)

Landing page for a local eatery with digital menu, booking CTA, and testimonials.

Tech Stack: HTML, CSS, JavaScript

Responsibilities:

- Designed responsive layout and user flow
- Implemented animated interactions and mobile menu toggle
- Delivered fully SEO-optimized static site

EDUCATION

Bachelor of Science (B.Sc), Computer Science

University of Port Harcourt – Port Harcourt, Nigeria

Graduated: 2016 | Second Class Upper Division

Certifications

- Frontend Developer Career Path – Codecademy (React, JS, HTML/CSS path)
- Responsive Web Design Certification – freeCodeCamp
- React Fundamentals Course – DibaTech Internal Training (2024)
- JavaScript Essentials – Sololearn
- Git & GitHub for Developers – Coursera (Basic to intermediate workflows)
